## ENVIRONMENTAL POLICY

*Our customers inquire how Savino del Bene is committed to saving the environment. We are continuously dedicated to the satisfaction of our clients who highly value environmental protection. By preferring partners who can supply innovative transport solutions we contribute to reducing the impact on the environment. Savino del Bene's corporate policy is especially committed to the following strategies:*

### Environment Protection

Our dual policy:

ECO TRANSPORT – choosing partners and mode of transport having the least amount of impact on the environment.

Eco- Consumption – preferring electronic documents and recycling paper and toners, reducing energy, electricity, water and gas.

### Informing and Training

A highly motivated Human resource staff is committed to supporting the environmental policy through special training programs

### Quality & Environmental Procedures

Full respect of all applicable legislation regarding the protection of the environment is one of the most important goals of our UNI EN ISO 9001:2008 QUALITY SYSTEM

Scandicci (FI), 31 January 2011

### Responsibility and Awareness

Building the awareness of the employees is fundamental to the team who dedicates its efforts in the same direction to serve our customers by taking the responsibility to due his duty to the best of his capacity and in respect of the environment.

### Improvement

Every step we take is up the ladder of excellence. Sometimes little improvements can have a big impact.

### Business Processes

All business procedures guided by a sophisticated IT network are updated to facilitate control and application of the legal, environmental and operational requirements of each process.

Il Presidente

Paolo Nocentini
