

# SAVINO DEL BENE®

Global Logistics and Forwarding Company

## 3S – Savino Del Bene Sustainability Shipments

Every year Savino Del Bene sets new ambitious objectives for a continuous improvement of the already high standards and to operate according to policies and procedures that integrate social, environmental and ethical factors in the company operations and in the basic strategy, all in close collaboration with the interested parties.

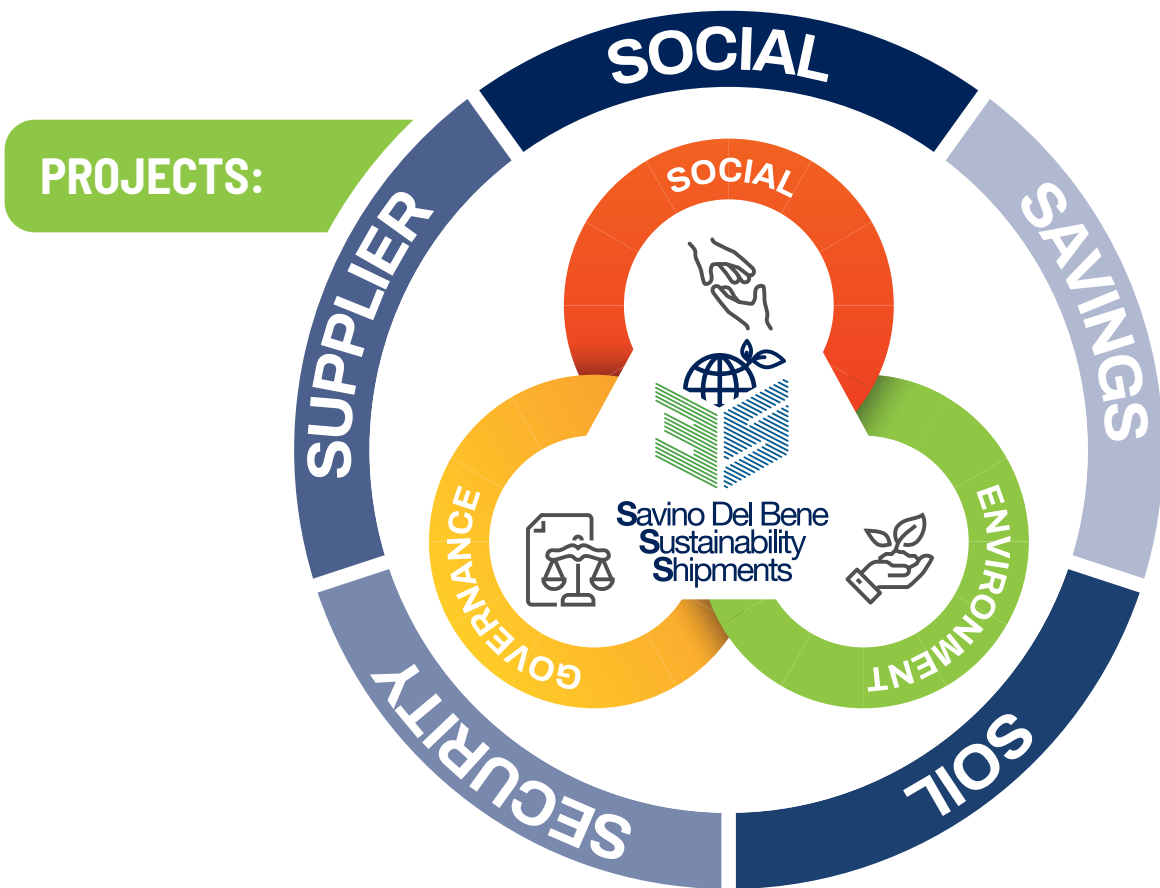

Savino Del Bene supports UN Sustainable Development Goals (SDG), focusing mainly on 7 of the 17 goals.

Our **3S** development plan - **Savino Del Bene - Sustainability - Shipments** - gives visibility to the opportunities that create value for our customers and increases the competitive advantage within the international shipping market.

**Savino Del Bene** faces the challenge of sustainability with the strength of its Network and the flexibility of its people.

**Resilience** is an extra value available to customers.
