## Who we are

Savino Del Bene is the leading Italian international shipping company and has been successfully operating for over 120 years. We provide exceptional shipping and **logistics services** that are customized to meet our customers' needs.

We handle **complex shipments**  
and provide **customized solutions.**

# Our **global presence**

More than 300 offices located in 60 countries around the world

# Why Savino Del Bene?

Five reasons that make us unique:

## Human Touch

At Savino Del Bene, we believe that the key to success is **the human element**.

We value the personalized business relationships and partnerships we have with our customers.

## Flexible solutions

Our flexibility is our strength offering a variety of shipping solutions in all modes of transport including **supply chain management** and customs clearance.

## Expertise

We apply our extensive market knowledge to provide the right shipping solutions **for every business across the globe**.

## Global network

Our worldwide presence of over **300 offices** in **60 countries** means we have in depth local knowledge of the customs and administrative regulations on all five continents.

## Innovative Technology

Through our Savino Del Bene IT division we have developed **customized cutting edge IT programs** that cover every aspect of the shipping process. At Savino Del Bene IT, we developed our **own applications** to be integrated with the internal installations and cloud services of other providers.

# International Freight Forwarding

## We handle the extraordinary

Our **Project Cargo** programs provide you with the best shipping options for materials, machinery and vehicles that, due to size and weight, cannot be moved by traditional means. **Customized solutions** have been designed for these situations including: break bulk, mafi trailer, flatbed and barge/OOG truck shipping methods.

We offer **customized solutions** for **oversized** and **overweight materials**.

# Find out about our services

What makes us unique

## Oil & Gas

We work alongside leading **EPCs** in the industry, taking care of every segment of the supply chain in a **professional manner** and providing integrated solutions to onshore and offshore logistics.

## Renewable Energies

**Environment** is very important to us, so we have developed shipping programs for the renewable **energy industry**. Organizing the movement of all components of different solar and wind power plants that often have **strict shipping schedules** and doing so in the same professional manner for which we are known.

## Mining and industrial projects

In both the mining and big industrial plant sectors, we handle all that is required for shipments of **large quantities of goods, or bulky, or heavy materials**.

Special attention is devoted to everything from timing to safety, and even cost management.

## NGO

We join together with various organizations to assist in **international humanitarian operations** that require the movement of industrial vehicles, construction materials or **emergency supplies**.

## Logistics solution

In addition to studying the best solution for handling heavy or oversized loads that cannot be shipped using standard shipping channels, we offer the following services:

- On-site inspection to view the goods
- Discussing with the manufacturer's technical staff
- Choosing the best partners
- Creating ad-hoc packaging
- Relevant loading and lashing aboard the transport vehicle
- Specialized charter service for large goods
