Delivering freshness

We provide shipping services for **every type of consumable product** making sure the food remains fresh and in good condition. Common challenges such as shelf life, and international regulations are easily handled by our team. Thanks to our global network, we have the **flexibility to respond quickly** to your every need, and our efficient operations help **reduce costs and eliminate waste**.

Savino Del Bene plays a **vital role** in the **food supply chain** by ensuring the products arrive in good condition.

Find out about our services

What makes us unique

Dry

Shipments in full or partial containers of **non-perishable and long-life goods** (pasta, legumes, canned goods, sugar, salt, sauces, flours, etc.), using all sizes of shipping equipment.

Flexitanks

Flexible, disposable tanks made of polyethylene and installed in containers to facilitate the shipment of beverages all of which can be **temperature controlled** according to the needs and sensitivities of each load.

Reefer

FCL or Groupage/LCL shipments of **temperature-controlled** perishables, either chilled (+4 +15) or frozen (-20), through the use of **customized containers**.

Control and safety

From **shipment tracking** (Track & Trace) to **order status** (PO Management), **logistics management** (Warehouse Management System) to **data exchange** (EDI system): every single step of the shipment, from pickup to delivery at destination, can be monitored in real time through our **IT systems**.

Special packaging

A wide range of **special packaging** and **thermal protection** used to insulate and prevent spoilage of goods when exposed to damaging temperature levels such as ISO Kit, carton pallets and envirotainer.

Logistics solution

We provide shipping services that are in **full compliance with local regulations** and utilize the best carriers for your food and beverage products. Each shipment is **carefully managed** in order to ensure your goods arrive at their final destination in excellent condition.
