Who we are

Savino Del Bene is the leading Italian international shipping company and has been successfully operating for over 120 years. We provide exceptional shipping and **logistics services** that are customized to meet our customers' needs.

We handle **complex shipments**
and provide **customized solutions.**

Our **global presence**

More than 330 offices located in 60 countries around the world

Why Savino Del Bene?

Five reasons that make us unique:

Human Touch

At Savino Del Bene, we believe that the key to success is **the human element**.

We value the personalized business relationships and partnerships we have with our customers.

Flexible solutions

Our flexibility is our strength offering a variety of shipping solutions in all modes of transport including **supply chain management** and customs clearance.

Expertise

We apply our extensive market knowledge to provide the right shipping solutions **for every business across the globe**.

Global network

Our worldwide presence of over **300 offices** in **60 countries** means we have in depth local knowledge of the customs and administrative regulations on all five continents.

Innovative Technology

Through our Savino Del Bene IT division we have developed **customized cutting edge IT programs** that cover every aspect of the shipping process. At Savino Del Bene IT, we developed our **own applications** to be integrated with the internal installations and cloud services of other providers.

International Freight Forwarding

A field full of possibilities

Savino Del Bene has **extensive experience** in moving machinery of all sizes, weights, and hazard levels and we are known for our reliability, and professionalism. We create **specialized logistics programs** for each customer and solve complex supply chain issues through our **careful planning and communication**.

We can take on the **challenges** involved in moving machinery to **destinations around the globe**.

Find out about our services

What makes us unique

KPIs

Quarterly Business Reviews to evaluate progress of any agreed upon service performance targets.

Visibility & Control

Access to real-time tracking of the supply chain through our track & trace system and customized reports are all part of the services we provide.

Control Tower Approach

Our centralized logistics program coordinates and monitors shipments, along with the flow of information. We keep our customers updated and remain in close contact, so that any changes in global production or shipping schedules can be managed quickly and accurately.

Customer-oriented service

Tailor made shipping programs are created just for you and are organized to follow any “just in time” inventory models. For over 120 years we have been providing winning logistics solutions, and our global network of experts are ready to plan a program for you.

Our **dedicated team** can handle it all

The Machinery sector includes all the product types identifiable with the customs code starting with HS 84:

- Machines for construction and agriculture
- Industrial machinery
- Pumps, motors, boilers
- Turbines, Propellers
- Nuclear reactors, generators, compressors, elevators
- Machinery tools and components
